Drug-Impaired Driving Campaign National Mobilization

Drug-impaired driving is a problem on America's highways. Like drunk driving, drugged driving is impaired driving, which means it is dangerous and illegal in all 50 States, Puerto Rico, and Washington, D.C. Whether the drug is legally prescribed or illegal, driving while drug-impaired poses a threat to the driver, vehicle passengers, and other road users.

Halloween October 31, 2018

Will just one more be one too many?

Don't let Halloween turn into a nightmare.
 Buzzed driving is drunk driving.

If you plan to go out with the ghouls and goblins to enjoy an adult beverage this Halloween, make sure you plan a safe ride home before you leave the house. Even if you "only have a couple," you are in no shape to drive.

Tragically, Halloween drunk-driving fatalities are on the rise. There were 55 deaths on Halloween night in 2015, up from 17 in 2011.
